

## THREE PEOPLE ARE KILLED IN TORNADO SATURDAY EVENING

**Storm Which Follows All Day Rain Sweeps  
Minnesota — Property Damage Results  
from Storm in Nebraska and Iowa—Live-  
stock is Killed, Telephone Wires Down.**

(By The Associated Press)  
WORTHINGTON, Minn., March 26.—A tornado, following an all day rain swept west and northwest of here between 6:30 and 7 p. m. today killing Dave Anderson, his son and another person at Reading, eight miles northwest on the Rock Island road and practically leveling Rushmore, eight miles west on the Omaha road, according to meager details received here. All wires are down.

Hastings, Neb., March 26.—A windstorm that is reported to have reached the severity of a tornado struck a short distance southeast of the village of Hansen soon after noon today. A number of barns and other out-buildings were blown from their foundations and at least one house was damaged.

**Livestock Is Killed.**  
Forty telephone poles were leveled between Hastings and Hansen. Considerable livestock was killed on two farms and barns on both places were destroyed.

Ansel, Neb., March 26.—A windstorm of much violence this afternoon in parts of Custer county caused the wrecking of outbuildings and the killing of livestock.

Iowa, March 26.—Six persons were injured and considerable property damaged here by a tornado wind which swept over Pocahontas county at eight o'clock tonight. All buildings of the county fair grounds with the exception of the grandstand were destroyed.

Sioux Falls, S. D., March 26.—Following a call for immediate aid, a special train with five doctors and two nurses aboard left here shortly after 10 o'clock tonight for Rushmore, Minn., where a tornado which, according to reports caused considerable damage to date.

Chicago, March 26.—Sporadic bands of tornado fury, arising in Minnesota late today caused several deaths, great property damage and heavy livestock losses as it swept southward, according to reports reaching here from the stricken places.

Three persons are reported to have been killed at Rushmore, Minn., which place, according to later word from Worthington, Minn., has been practically leveled. Heavy livestock losses are reported from regions around Ansel, Neb.

From Sioux Falls, S. D., it is reported that twelve inches of snow fell in less than three hours both at Watertown and Huron. At Sioux Falls, a strong wind was raging and the temperature had dropped ten degrees below zero shortly before midnight.

Telegraphic and telephonic service in the stricken areas are reported crippled.

## CANADA MAY REVIVE TRADE WITH SIBERIA

VANCOUVER, B. C., March 26.—The signing of the trade agreement between Great Britain and Russia has led to talk here among shipping and commercial interests of a revival of Canadian trade with Siberia.

Several syndicates have already been formed to take advantage of the first chance for a resumption of the trade relations built up with Siberia during the first years of the war and interrupted by the Russian revolution.

In the opinion of Charles S. Meek, an importer, Canadians will encounter a serious obstacle in Japan influence in Siberia. He warned today that Japan naturally will reserve to her own traders all the commercial advantages afforded by geographical location and military occupation of certain areas.

## FRENCH WITH U. S.

**IN RUSSIAN ACTION**  
Paris, March 26.—(By A. P.)—Press dispatches telling of the rejection by the American cabinet of the Russian soviet trade proposals were received with satisfaction in official circles here today.

While none of the officials would permit himself to be quoted, all were undisguisedly pleased that the United States had seen fit to reject Lenin's plea for recognition, the French interpreting the American attitude as a certain amount of support of the French viewpoint regarding the soviet republic.

## ALSBURG TO LEAVE

**BUREAU OF CHEMISTRY**  
Washington, March 26.—Dr. Carl A. Alsbury, chief of the department of agriculture's bureau of chemistry announced his intention of leaving the department June 1, preparatory to taking up his new duties as a director of the new food research nutrition institute at Leland Stanford University, California.

## PAPAL FUNERAL MUSIC WILL BE SUNG AT SERVICE

**Manuscript Copy of  
Music Arrived from  
Vatican Last Week**

**BISHOP CORRIGAN IN  
CHARGE OF DIOCESE**

(By The Associated Press)  
BALTIMORE, Md., March 26.—At funeral services for Cardinal Gibbons, next Thursday, in the Cathedral, there will be sung music heard before only at the funeral of sovereign rulers of the Catholic church in the Sistine chapel in Rome. The manuscript never before has left the Vatican.

Just before the body is laid to rest in the crypt beneath the Cathedral altar, this solemn Gregorian chant will be sung.

This music, prepared especially for funeral services of popes, is among the most beautiful and impressive compositions ever written for a Gregorian choir. It will be sung by the Gregorian choral society of St. Mary's seminary.

**Papal Music Arrives**

A manuscript copy of the music arrived in Baltimore last week. Some time ago, when the cardinal was quite ill, the subject of Gregorian music, which the prelate loved, was being discussed with the apostolic delegate in Washington. Then came the suggestion that Rome be asked if a copy of the papal funeral music could be sent to Baltimore in the event of the cardinal's death, as a special recognition from Rome of the American prelate's services to the church.

This request was transmitted at the time and Pope Benedict ordered the officers of the pontifical chapel to have a manuscript copy made and sent to the Very Rev. Dyer, president of St. Mary's seminary. With the arrival of the music, just before the cardinal's death, a small group of the late prelate's personal friends were asked to finance the printing of the music for choir.

The cardinal's body will rest for the last time tomorrow on his own bed in his room at the archiepiscopal residence, watched over by special guards of Christian Brothers. Early Monday morning it will be removed to the Cathedral to lie in state until the funeral. Bishop O. E. Corrigan was confirmed as administrator of the archdiocese by Monsignor Bonzano, apostolic delegate to day, and immediately assumed charge of the clerical affairs.

## CHARGE MEN WITH STAMPED CATTLE

**Alleged to Have Stamped Cattle  
That Were to Be Shipped  
to Germany—Four Fined for  
Carrying Concealed Weapons.**

(By The Associated Press)  
Tripp, S. D., March 26.—Fourteen men all said to have been implicated in the stampeding of thirteen head of cattle at Scotland Wednesday night were arrested here tonight. They were searched and four were charged with carrying concealed weapons. They were fined \$5 and costs. The others were freed.

Several of the men said that they were members of an ex-service men's organization in Scotland they wished to make it emphatically understood that they were in Tripp as individuals and not on authority of any organization. According to official reports they admitted to officials that they liberating the cattle donated by farmers and carried here for shipment to Germany.

The shipment was carried out this afternoon with several hundred farmers standing by armed, it was said to see that there would be no interference.

## PLYMOUTH PREPARES FOR ITS CELEBRATION

Plymouth, Mass., March 26.—The town of Plymouth, at its annual town meeting today, appropriated \$30,000 in addition to \$10,000 previously appropriated, to assist in defraying the expense of the Pilgrim celebration next summer.

The money will be used chiefly for entertainment of invited guests and of sailors of the Atlantic fleet.

The sum of \$2,000 will be devoted to maintenance here of a camp of Passamaquoddy Indians, as a reminder of the part friendly natives played in the success of the Plymouth colony. On August 1, President Harding will be the guest and will enter Plymouth Bay. There will be numerous parades and pageants.

## SHIP WRECKED BUT SHIP'S CAT SAVED

Boston, Mass., March 26.—The crew of the British Schooner Roberta Ray arrived today on board the Freighter Triumph from Antwerp, which rescued them March 20 when their vessel crushed in an ice floe. They lost all their personal effects but saved the ship's cat.

**NEW ASSISTANT SECRETARIES**  
Left, Elliot Wadsworth, of Boston, new assistant secretary of the treasury. He will be in charge of foreign loans. Right, Lieut. Col. J. Mayhew Wainwright of New York, new assistant secretary of war. He is a lawyer and served on the staff of Major General O'Ryan.

## CONSUMERS ARE TO BLAME FOR COAL SITUATION DETECTIVES FAIL TO ANSWER DYING CRIES OF COMRADE

**Policy of Buy Only As  
Needed Being Pur-  
sued Dangerously**

**RESULT IS ARMY  
OF UNEMPLOYED**

(By The Associated Press)  
WASHINGTON, March 26.—Consumers and not the railroads the operators or the miners are responsible of present depression in the bituminous coal industry. Dr. George Otis Smith, director and F. G. Tryon, coal statistician of the geological survey declared in a statement issued tonight.

A policy of buy only as needed, in being pursued dangerously by bituminous consumers, the statement said. Empty coal bins will be the result, it was said, should a sudden industrial upturn develop as in such an event the mines would be unable to produce and the railroads unable to carry sufficient coal.

Reports of the bituminous production this month, the statement said show constant declines, 6,525,000 tons being the production for the week ending March 19 as contrasted with a weekly production of around 12,000,000 tons several months ago.

The depression in the bituminous industry the statement said has resulted in "a veritable army of unemployed."

Many thousand railroad employees also are out of work, it was declared because 204,000 coal cars are reported idle on sidings.

"All signs point to the consumer as the controlling factor in the present situation," the statement continued.

Regarding the attitude of bituminous consumers, the statement said, general business depression was no their only consideration but that prices were deemed to be excessive and many consumers, it was said are awaiting a drop.

"The operators, however," said the statement, "report that the price has gone down as far as it possibly can. The plain situation is that the coal buyer distrusts the coal seller. His answer to offers of contracts may be natural but is it safe?"

## ASK DAWES ADVICE ON SOLDIER BONUS

Washington, March 26.—To ask for advice regarding an administration policy toward soldiers compensation and related subjects President Harding today called Charles G. Dawes of Chicago, who served as a brigadier general in France and who at one time was under consideration for secretary of the treasury in the Harding cabinet at Washington.

Mr. Dawes would not indicate the recommendations he took to the White House nor forecast what the president's decision might be. He will remain over Sunday and will go to dinner at the White House tomorrow with F. W. Galbraith of Cincinnati, commander-in-chief of the American Legion; Thomas W. Miller, alien property custodian, and Assistant Secretary Roosevelt of the navy department.

## ROBERT E. LEE SCHOOL OF JOURNALISM TO BE STARTED

Lexington, March 26.—The Robert E. Lee School of Journalism is soon to be established at Washington and Lee University in memory of the General who as president founded the first chair on that subject in the history of the country. His announcement was made today by Dr. Henry Louis Smith, president of Washington and Lee.

## TWO ST. LOUIS MEN ARE INDICTED IN BASEBALL SCANDAL

**Four New Indictments  
Are Returned in Sec-  
ond Baseball Probe**

**THIRTEEN MEN ARE  
REINDICTED**

(By The Associated Press)  
CHICAGO, March 26.—Carl Zork, a shirtwaist manufacturer and Benjamin Franklin, both of St. Louis, were charged today by officials of the state's attorney's office with being the organizers of the alleged plot thru which Chicago White Sox players were said to have thrown the 1919 world series to Cincinnati.

Announcement that these two men would be formally accused when brought to trial with engineering the alleged deal was made by the state's attorney's office after indictments against 18 men including Zork and Franklin had been returned by the Cook county grand jury which today finished the second investigation into the baseball scandal.

Joseph J. Sullivan known in the case as a gambler, Louis and Ben Levi, formerly of Des Moines Iowa, and Abe Attell were linked with Zork and Franklin by the state officials.

Sullivan, officials said the evidence showed, handled operations in the east, the Levi brothers directed the alleged conspiracy in the central west with Des Moines as headquarters and Attell acted as traveling agent. Zork, Franklin, the Levi brothers and David Zessler, said to be well known in Des Moines and San Francisco, were indicted today.

**All Are Indicted.**  
In addition to these thirteen men indicted last fall were re-indicted.

These men were Claude Williams, Eddie Cicotte, Joe Jackson, Buck Weaver, Swede Risberg, Oscar Felsch, Fred McMullin, Chick Gandil, Hal Chase, Joseph J. Sullivan, Rachel Brown, Abe Attell and Bill Burns.

Each man was named eight times in the indictments and each indictment specified three counts against them—conspiracy to defraud, conspiracy to do an illegal act and obtaining money under false pretenses.

EBall was fixed at \$3,000 for each count for each time a man was named making \$24,000. The state's attorney immediately began preparation of extradition proceedings against the men indicted but it is not expected that the trial will come up before fall.

Robert E. Crowe, state's attorney in discussing the names of Zork and Franklin as the alleged fixers of the series said:

"I told you when we dropped some of the baseball cases a few days ago that the first investigation had been bungled and that the real men behind this conspiracy had not been indicted. We have handled this second investigation carefully and have not overlooked a single legal point. When the case comes to trial we will be ready."

## RAILROADS CARRIED OVER BILLION PEOPLE IN 1920

Washington, March 26.—Passengers on American railroads in 1920 totalled 1,234,222,889 as compared with 1,174,721,842 in 1919, according to figures given out today by the interstate commerce commission. The increase in railroad fares apparently resulted in only a small decline in travel.

The average passenger traveled 26.71 miles in December as compared with 27.73 miles in the same month in 1919.

## LACK OF DISCIPLINE AMONG THE SAILORS CAUSE OF REVOLT

**Ever Since Revolution Kronstadt Has Shown  
Tendency To Develop Into Dependent So-  
viet Republic—Trotzky Has Plans Made  
for Strong Soviet Navy.**

(By The Associated Press)  
STOCKHOLM, March 26.—Details of the beginning of the Kronstadt revolt against the Bolshevik administration and the circumstances forming a background against which this episode can be seen and judged have been learned from well informed sources by way of Riga and Helsingfors. Since the Bolshevik revolution Kronstadt had a tendency to develop into a dependent soviet republic within the larger Russian Republic.

## JAMES C. DAVIS TO BE DIRECTOR GENERAL OF R. R. ADMINISTRATION

**Ohio Man Named by Harding  
Saturday to Succeed  
J. B. Payne**

**HIGHLY PRAISED FOR  
WORK BY PRESIDENT**

(By The Associated Press)  
WASHINGTON, March 26.—James C. Davis of Ohio, former general counsel of the Chicago Northwestern railway, was appointed director-general of the railroad administration by President Harding today, to succeed John Barton Payne, who has held the post last year, in addition to his duties as secretary of the interior.

Mr. Davis is now serving as the railroad administration's general counsel and will assume charge as director Monday. At the same time he will succeed Mr. Payne as agent of the president in legal suits growing out of government operation of the railways. The double designation is made necessary by a technicality.

In announcing appointment of Mr. Davis, the White House made public a letter written by President Harding to the retiring railroad director and secretary of the interior, expressing appreciation for the latter's services.

"I cannot allow this occasion to pass," wrote Harding, "without conveying to you my gratitude for the signal service you have done in connection with the administration of the railways, but also your notable contributions to the government service in one of the most difficult periods of all history."

## DUTCH ORCHESTRA CONDUCTOR FLEES WOMEN'S KISSES

**Locks Himself in State Room  
On Ship To Escape  
Salutations**

**SEVERAL HUNDRED  
FEMALES PRESENT**

New York, March 26.—William Mengelberg, Dutch orchestra conductor, became so flustered today when four hundred admirers tried to kiss him, slap his back and shake his hand before he sailed for Holland, that he stumbled into his stateroom and locked the door.

The crowd, mostly women—clustered on the steamer Nieuw Amsterdam for an audible admiration party to the maestro, who last night concluded a season as leader of the National Symphony orchestra.

As sailing time approached, ship officers persuaded the musician to greet the crowd. He began to speak, but the enthusiasm of his listeners bubbled over and they tried to embrace him en masse. Four women kissed Mr. Mengelberg and two women fainted.

Finally the conductor slipped away, the crowd went home and the ship sailed.

## STILL HOPEFUL OF BALLOONISTS' SAFETY

Pensacola, Fla., March 26.—Altho four days have passed since Chief Quatermaster George K. Wilkenson and four companions left the naval air station here in a free balloon, officials were hopeful tonight of the safety of the five men. Search of the entire area to which the wind might have blown the craft has been made by dirigibles, seaplanes and eagle boats, without success. Failure to find any trace of the balloon was taken by station officials as indicating that the craft either drifted to some infrequent spot or that the men were picked up by some fishing boats.

Alexander Howat, miners leader, has called another strike. This is a matter of such common occurrence with Mr. Howat that his action has almost lost news value.

There was an old saying that "figures do not lie." Then came the additional line that "liars sometimes figure." The Sullivan bank shortage case will make a further revision of the saying necessary, for evidently adding machine figures do lie—that is, when the machine is manipulated. Examiner Weir found that it was this fact of manipulation that made it possible thru a period of years to successfully cover a heavy shortage.

Daylight saving will become effective in Chicago today, in accordance with the ordinance passed by the city council. This is another instance to prove the lack of community interest between Chicago and the downstate. The daylight saving law applying only to the city and

standard time being observed all over the rest of the state, will cause a certain amount of confusion.

The joint committee from the Illinois legislature promises to make a thoro inquiry into the alleged building materials trust in Chicago. It is said that enough information is already on file to justify the naming of this inquiry committee. The New York inquiry reveals some astounding facts as to the relationship between the manufacturers and certain organized labor groups. However, it is not recorded that the investigation resulted in any great reduction in the cost of building operations and that is the big problem in the Chicago inquiry.

## THE COMING SCHOOL ELECTION.

Petitions were in circulation yesterday for J. P. Lipincott, as president of the board of education, together with George S. Rogerson and Dr. W. P. Duncan as members of the board. This action will be pleasing to the voters of the city, who hold the general belief that both members have consistently sought to do those things that they have felt are for the best interests of the school system.

It is understood that Albert C. Metcalf, whose term also expires, because of the stress of other duties has determined not to be a candidate for re-election.

## INDUSTRIAL HOME WORK.

In an investigation of children engaged in industrial home work in three Rhode Island cities made by the Children's Bureau of the U. S. Department of Labor, it was found that 8 per cent of all

the children between 5 and 15 years of age had at some time during the year done factory work in their homes, either by hand or machine. They assembled jewelry, strung beads, finished lace and undergar, carded snaps and shoe buttons and performed many other simple operations incidental to manufacture.

In the majority of cases family need was given as the reason for home work. This work, however, added but little to the family income since the average earnings per family during the year from this source was only \$48. Over half the children were unable to earn as much as 5 cents an hour.

Many of the children worked not only after school, but also in the evenings; some worked exclusively at night. A few of the children who worked all day in factories or stores also worked at home every night, and eye strain was commonly reported. Teachers and school officials stated that home work interfered with school attendance and the quality of school work.

The homework system makes a factory out of the home, and the workers are subject to hazards from which they are not guarded by law. The health of the community is endangered by the use of clothing and other articles made in homes in which infectious diseases are present. More than half the employers interviewed stated that it would be possible to make readjustments in their factories if the system of home work were abolished.

## MR. SCHWAB SOUNDS WARNING BUT IS OPTIMISTIC.

Charles M. Schwab is a business leader of such acknowledged judgment that people generally give heed to his views. Mr. Schwab has come back from a reconnoitering trip overseas with the glad prophecy that an era of business prosperity is at hand for the U. S., and with the solemn warning to beware of German efficiency. This is what Mr. Schwab said:

"I want to speak a word about Germany first. This government and the allies, too, must stop fooling themselves.

"I say with great earnestness, beware of Germany and beware of German efficiency.

"I made it a point to get certain facts. I have discovered that Germany is recovering from the war faster than any man knows.

"France and Italy are getting on their feet, but Germany is almost on her feet. Germany is going to be a tremendous factor to deal with, and every other nation on earth will find her a relentless competitor.

"Germany has been conquered but her spirit and efficiency is not conquered.

"German diplomats fear America. Germany cannot outstrip the United States if we keep our heads and meet measure for measure.

"The reparations question is very serious because it continues to keep exchange unstable and with exchange uncertain there must be tremendous waste and loss.

"America is due for the greatest wave of prosperity in her history. We must have a moderate protective tariff, and if this is enacted right away and peace is literally declared, the American worker will come into his own.

"For then he will be protected from harm thru ruinous competition of foreign goods now being assembled in Germany, France and Italy for invasion of the United States."

## STORY OF SULLIVAN BANK SHORTAGE TOLD

Consulting Examiner Weir Discovered That Adding Machine Manipulators Had Covered Up Real Condition.

News dispatches the past week have given some facts about the closing of the Merchants and Farmers' bank at Sullivan, where a shortage of \$262,141.72 was uncovered. G. B. Whitfield was the cashier of the institution and is suffering from a nervous breakdown. The day the shortage was discovered Whitfield disappeared and that night was found in the coal bin in the basement of the bank building. Later, when he was taken to a nearby building, he was so excited that eight men were required to hold him.

It is the opinion of Miller Weir, consulting bank examiner, who went to Sullivan to take charge on behalf of the state auditor, that by adding machine manipulation the bank shortage had been covered up thru a period of years. It is understood that a reorganization plan is under way which will protect the depositors. The Sullivan Progress, in this week's issue, gives the following interesting story about this very strange bank situation:

"It is my opinion," stated Miller Weir, consulting bank examiner from the state auditor's office, "that the shortage in totalizing the individual deposits in the individual ledger and the balance shown on the cashier's daily statement, was covered by manipulation of the adding machine at the time of the last examination of the bank by the auditor, last August.

How It Was Done

Mr. Weir gave the following further information as to how the shortage was covered up.

The daily "checks cashed" total was juggled and the total as shown on the books was more than the actual total, for the day. In this manner the deposits of the bank gradually decreased, while the ledger accounts were correct. For example on one particular day within recent months, the daily total "checks cashed" was approximately \$8,000, as shown by the total on the daily account. This total was incorrect. Going over these figures, Mr. Weir discovered that the total "checks cashed" was actually \$7,100, or just \$1,500 less. In a similar manner the daily cash account was juggled for this day. The "cash received," as shown by the total was \$20,000. In again adding this column, it was found that the correct total of "cash received" column was actually \$21,500.

## Money Disappears, Resources Decrease

Fifteen hundred dollars had thus disappeared out of the bank's resources without any similar decrease on the individual account ledger. It was only by totalling up the amount for that day that Mr. Weir discovered the elusive method which has been baffling the corps of bank experts ever since they started on the job.

How far back this falsifying of accounts has been practiced cannot be determined until a complete audit is made of the books. Picking at random among the daily balance sheets, Mr. Weir discovered similar shortages in 1918. Two such shortages were discovered, one for \$500 and the other for \$1,000. While these peculations may extend back for a number of years, it was only manipulation of the adding machine as above explained by Mr. Weir that kept the matter covered this long.

It was during 1920 that the bank's deposits declined rapidly. At the beginning of the year they were approximately \$450,000. At the time the bank was given into the hands of the examiners, last week, the deposit account showed but \$210,009.46. At times during the past year it had dropped below \$200,000, according to the daily reports. A financial report of the bank's condition is shown on the books for every day that the bank is doing business.

By giving a fictitious total for the "checks paid" column, by adding a thousand or two, and deducting a similar amount from the "cash received" column, whoever did the stealing, pocketed the balance.

Russell Says "Protect Depositors"

Mr. Weir, on Thursday morning, called State Auditor Russell by telephone and reported to him his discovery as to how the shortage had been covered up and what method had been followed in taking the money. The examiners lay the blame on no one, but say that it is a matter for the law to determine. Mr. Russell told Mr. Weir to bear in mind at all times the interest of the depositors. He approved the plan of the stockholders of the bank in making the shortage good, in accordance with the plan decided on several days ago.

"This thing has been a deep puzzle to me," remarked Mr. Weir. "Puzzles interest me and I am glad to have found the solution. While it is no pleasure to me to see men go wrong and commit crimes like this one, nevertheless, I find it an absorbing proposition to try to solve their games and find the system which they have worked."

## UNITY WORKERS OF WOODSON CHURCH MET

Interesting Program Carried Out at Recent Meeting at Home of Mrs. George Cunningham.

The Unity Workers of Woodson church met Thursday afternoon at the home of Mrs. George Cunningham. There was only a fair attendance, owing to the unfavorable weather conditions. Following the devotional exercises came the business session, at which time the treasurer gave a report of the year's work. A vote of thanks was accorded the president for her faithful services to the society.

The election of officers took place, resulting in the choice of the following:

President—Mrs. J. Hoagland.

1st vice president—Mrs. William Colton.

2nd vice president—Mrs. William Rook.

Secretary—Miss James Irlam.

Treasurer—Mrs. George Cunningham.

The committee to have charge during April and May was appointed, including the following: Mrs. Steinmetz, chairman; Mrs. A. E. Powell, Mrs. Baxter, Mrs. J. C. Colton, Mrs. George Cunningham.

The flower committee includes Mrs. Powell, Mrs. Cunningham. The program closed with a song "Be Like Jesus," and prayer by the president.

A social hour followed the program, and at this time the hostess served refreshments in keeping with the Eastertide.

## LOCAL MEN ACQUIRE PANA HOTEL PROPERTY

Edward Brennan and Jacob Magid Have Leased Well Known Hostelry—Extensive Betterments Are Planned.

Announcement was made yesterday that Edward Brennan, proprietor, and Jacob Magid, manager of the Pacific Hotel, have acquired the Hotel Frances in Pana. That is the leading hotel in Pana and the new management will take it over April first.

The hotel is to be closed for a six week period while extensive remodeling and refurbishing is in progress. The building has 63 rooms and will be operated in accordance with the long and successful experience of the new owners.

Some years ago Mr. Brennan was the lessee of the Hotel Frances and at that time became acquainted with Mr. Magid whom he later brought to the Pacific. With years of experience, Mr. Magid has developed into a thoroughgoing hotel man and so his former employer is now pleased to have him as a partner.

This will be the fourth hotel property in which Mr. Brennan is interested. In addition to the Pacific in Jacksonville he is now half owner of the hotel at Lawrenceville, which is under the management of Frank Reid, and the McFarland at Connersville, Ind., under the management of George W. Scott. The Lawrenceville and Connersville properties are both new and modern and are being operated in a way satisfactory to both the public and the owners and managers. The success of Mr. Brennan and his associates is a matter of pleasure to their numerous friends.

## TIRE THEFT CASE BRINGS MANY FROM FRANKLIN

Franklin was largely represented at the hearing of a case in "Squire Opperman's court Saturday, involving the theft of an automobile tire. The complaining witness is T. J. Leahy of Pleasant Plains.

It is charged that Merle Sublett, Clarence Kinney, Porter Armstrong and Ivan Gray were implicated in the theft of the tire, Thursday night, April 17, when Leahy drove to Franklin to attend the home talent play. The hearing Saturday was continued to April 25 and Kinney, Armstrong and Gray had no trouble in furnishing bond. It was a different matter for Sublett, and he went to jail to await trial.

State's Attorney Robinson has a long list of witnesses to call for the trial, and it is alleged that a number of people saw Sublett take the tire from the car and also know of his offering it for sale.

STRIKERS WITHDRAW FROM WAGE HEARING

Leave Meeting When Sibley Rules That Receiver Should Not Discharge Men Who Took Strikers' Places.

ATLANTA, Ga., March 26.—Strike employees of the Atlanta, Birmingham & Atlantic railroad withdrew from the wage hearing in federal court today, after Judge Sibley had ruled that the receiver of the road should not discharge 900 men employed to replace union men.

"There is nothing for us to gain here," declared Chairman Fitzpatrick of the joint brotherhood committee, as he and the other union men left the court room.

Counsel for the railroad had previously declined to consider a proposal of the union men that they would call off the strike and accept wage cuts if the strikers were permitted to return to work at their former status, provided the court would appoint expert auditors to examine the company's books to ascertain if it is able to pay wages on the old basis.

BODIES OF NEGROES ARE FOUND ON JASPER COUNTY PLANTATION

Were Led To Spot by Clyde Manning Self-Confessed Murderer.

MAKES TOTAL OF NINE BODIES DISCOVERED

Atlanta, Ga., March 26.—Bodies of six negroes were found today on the Jasper county plantation by John Williams, by department of justice agents, led by Clyde Manning, a negro who was employed by Williams and who, according to authorities, has confessed that he aided Williams in killing the negroes.

These bodies brought the total discovered in connection with the peonage investigation up to nine. The bodies of three other negroes having been found several weeks ago in the Yellow river, chained and weighted down with rocks. The department of justice agents announced tonight they would continue the search for two more bodies, said by Manning to have been thrown into the Alcey river.

Williams, owner of the plantation, is in jail on a state warrant charging murder and warrants have been issued for his three sons, Julius, Huyler and Marvin.

Manning was taken to the Williams plantation to substantiate his confession that he had killed four negroes and aided in the death of others at the direction of Williams.

Williams today denied any connection with the deaths of the negroes and declared that an old family feud had resulted in conspiracy to bring about his arrest.

AUTHORITIES WILL DETERMINE ACTION

Seattle, Wash., March 26.—Action of federal authorities with regard to murder charges against Robert Rosenbluth and Roland Pothier, former service men in connection with the death of Major Alexander Crookhite at Camp Lewis, Wash., in 1918, will be determined by the result of an inquiry as to federal jurisdiction it was announced at the office of District Attorney Saunders tonight.

If the investigation shows that title to the military reservation at Camp Lewis passed to the federal government after the alleged crime was committed the federal charges would have to be dismissed, Mr. Saunders said.

MILLIONAIRE HOBO ORGANIZING UNEMPLOYED

Salt Lake City, Utah, March 26.—James Eads How, known as the "millionaire hobo," who is engaged in forming an "organization of unemployed" here, declared today it was probable that a big delegation would shortly wait on President Harding and request that work on government projects be hastened to provide more jobs.

How said there were many millions of dollars available for road construction.

He said the delegation would travel to Washington afoot, picking up unemployed on the route and that it might be several thousand strong.

SUCCESSFUL DAY AT BOWLING CONGRESS

Buffalo, N. Y., March 26.—Bowling in the singles of the American Bowling congress tournament today was the most successful of any day of the tournament, despite the fact that none of the competitors rolled high enough to win a place among the ten leaders. Seventeen of the 175 individual performers counted in the six hundred class, Catchpole of Jamestown, showing high total of 655.

A total of 1201 by L. Amison and H. Harris of Trenton, N. J., was high score in the two man event today.

ANOTHER WOMAN ESCAPES

Mrs. McCumber Avoided a Serious Operation by Taking Lydia E. Pinkham's Vegetable Compound

Georgetown, Ill.—"After my first baby was born I suffered so with my side that I could not walk across the floor unless I was all humped over, holding to my side. I doctored with several doctors but found no relief and they said I would have to have an operation. My mother insisted on my taking Lydia E. Pinkham's Vegetable Compound and I soon found relief. Now I can do all my own work and it is the Vegetable Compound that has saved me from an operation. I cannot raise my medicine too highly and I tell all of my friends and neighbors what the Compound did for me."

Mrs. MARGARET MCCUMBER, 27 S. Prairie St., Georgetown, Illinois.

Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments which women with backache, headaches, nervousness, bearing-down pains and nervousness, and every such woman should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial.

WILL INVESTIGATE CLASSICAL EDUCATION

Work to Be Undertaking By General Education Board—Will Cover Period of Three Years.

Princeton, N. J., March 26.—The general education board has appropriated \$60,000 to conduct an investigation of classical education in secondary schools. It was announced tonight by A. F. West, dean of the Princeton graduate school and chairman of the advisory committee which will supervise the work of the American classical league. The investigation probably will take three years according to Dean West.

Its scope will be to ascertain the condition of classical education and determine its faults.

Latest available statistics show Latin is being studied by more pupils than any subjects but English, history and mathematics. The slump in classical enrollments during the war has been regained largely, chiefly at the expense of German.

CAN GET HELP IN RAISING CHILDREN

WASHINGTON, March 26.—Does any American city or town between 20,000 and 30,000 population need help in raising its children? If so, the National Child Health Council, so it announced today, is willing to aid to the extent of \$200,000.

The proposed aid will be administered over a period of five years in such a way as to obtain "as nearly as possible ideal conditions for the development of its children, from babyhood to adolescence, into sturdy, happy, useful citizens."

The town health council has decided should be located in a county of between 50,000 and 60,000 population with the area outside of the city agricultural. The city itself should have a normal percentage of its population engaged in manufacturing.

VERITAS GIVES MARITIME LOSSES

Paris, March 26.—The March bulletin of the bureau Veritas, issued today, gives the January maritime losses and accidents. The total loss in steamers was 28, the United States being third, with three steamers, and England leading with seven. The sailing vessels lost numbered 31, England leading with 12.

The accidents to steamers numbered 492 and the sailing vessels 132.

The United States lead in steamer tonnage lost with 5,340 gross.

CAT TIPS OFF BOOZE CACHE

New York, March 26.—A cat in search of a lost chord today led to seizure of 36 bottles of whiskey inside a piano aboard the Trinidad liner Mayaro.

A prohibition inspector accidentally stepped on pussy's tail. Pussy yowled and jumped thru a porthole into a cabin on what would have been the top of an upright piano, had the top been closed. But it wasn't and amid a bit of feline jazz the "dry" agents caught the jangle of glass. Discovery of the whiskey followed.

INVESTIGATION IS SHOWING FEARFUL AGENCY OF GRAFT

Senator Dailey Believes Is Reason of Building Stagnation

FORMER CHICAGO CONTRACTOR TALKS

CHICAGO, March 26.—The legislative joint committee here to expose alleged building price combinations among material men and alleged graft in the building trades unions, announced tonight it had obtained the names of members of an "educational committee" composed of four men, who according to the commission's informant, all the graft money four ways between three business agents and one material man.

The informant's name is withheld but he is said to have been at one time a business agent of a building trades union here.

Senator Dailey, chairman of the commission told newspapermen that "more rapidly than we had expected the secret operations of a fearful agency of graft is unfolding before us."

Graft Alone Responsible

The senator said this alone was responsible for the building stagnation in Chicago giving no ear to the arguments of high priced materials and dear labor.

A. E. Jessurum, president of the Chicago Tenants' League which has started a fight in the legislature to curb excessive rent prices submitted to the commission a letter signed by a former Chicago contractor, whose name is withheld, who charges that the Chicago Real Estate Board in 1909 drove him out of business, because "I refused to sell my bungalows and cottages at a figure suggested by the real estate board."

He wrote that the cost of those dwellings was from \$1,800 and \$2,000 and that he placed the sale prices respectively at \$3,800 and \$4,800.

"When I refused to boost my price higher, as the board suggested," the letter read, "the strings were pulled and I could get neither labor or material thereafter."

Why Glasses Are Worn

For a long time, glasses were used only to assist in reading or near work, but with increased knowledge of the eye we are able to adjust glasses to improve the sight, thereby curing chronic headaches and many nervous afflictions caused by eye strain. Thousands who wear properly fitted glasses are living testimony to the truth of it.

ANOTHER WOMAN ESCAPES

Mrs. McCumber Avoided a Serious Operation by Taking Lydia E. Pinkham's Vegetable Compound

Georgetown, Ill.—"After my first baby was born I suffered so with my side that I could not walk across the floor unless I was all humped over, holding to my side. I doctored with several doctors but found no relief and they said I would have to have an operation. My mother insisted on my taking Lydia E. Pinkham's Vegetable Compound and I soon found relief. Now I can do all my own work and it is the Vegetable Compound that has saved me from an operation. I cannot raise my medicine too highly and I tell all of my friends and neighbors what the Compound did for me."

Mrs. MARGARET MCCUMBER, 27 S. Prairie St., Georgetown, Illinois.

Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments which women with backache, headaches, nervousness, bearing-down pains and nervousness, and every such woman should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial.

## JAPAN CANNOT TALK TO SOVIET DELEGATES

TOKIO, March 26.—(By The Associated Press)—No objection has been made Japanese to the cessation of Kamchatka by the Far Eastern Republic to Russian soviet government the foreign minister explained today, but it cannot accept the suggestion of the soviet government participate in the fisheries conference because Japanese has no relations with the soviet.

Negotiations with the far east republic at Chita, it is pointed out concern the extension of the Kamchatka fishery lease for ten years opening of bays, gulfs and the maritime coast to Japanese fishermen and the lifting of the ban on fishing in waters within eight miles of river mouths.

## MIKADO PLEASSED LOCAL AUDIENCES

Well Balanced Ralph Dunbar Company Headed in "The Mikado" at the Grand Saturday Afternoon and Evening.

The Mikado, that wonderfully tuneful comic opera that has survived so many seasons, was presented at the Grand Saturday afternoon and evening. Ralph Dunbar's companies always include capable people and so the cast of the Mikado was entirely satisfying.

It is a credit to the producer and to the public that an opera like the Mikado lives giving proof that musical productions of real worth will draw audiences year after year with unwaning popularity.

Many is the opera that has come and gone since this effort of Gilbert & Sullivan, and it has outlived other musical productions by the hundred. The good work of the principals, prominent among them being Ed Andrews, is supported by a wonderful chorus, and an orchestra of size and excellence.

The scenic and costume equipment furnished further proof of the Dunbar generosity in accessions. With all these things taken into account, it goes without saying that the Jacksonville audiences both Saturday afternoon and evening were greatly pleased.

W. R. Huckleby left yesterday for Sikeston, Mo., to join Mrs. Huckleby in a few days' visit with their daughter, Mrs. Inez Huckleby Anderson.

## LOCAL FIRM PLANS BUSINESS EXTENSION

Princess Candy Co., to Install Huge Refrigerating Plant—To Manufacture Products on Extensive Scale.

Among the newer Jacksonville firms which have made progress worthy of special note is that of the Princess Candy company, located on the South Side of the square, owned and operated by Chris Genetos and Thomas Calley.

About five years ago this firm started in their present location in a retail candy and ice cream business. With strict attention to the wants of patrons and in failing courtesy they have been able to reach their present enviable position.

About three years ago the firm entered the manufacturing field and commenced producing and selling in a wholesale way. The business grew rapidly and the company was obliged to install several modern candy making machines. Traveling men are sent out and now the Princess company's products are sold in several surrounding states.

Saturday the members of the firm announced they had contracted for the installation of the largest refrigerating plant to be found in this section, which it is expected to have in operation in about thirty days. It will be operated by a 20 h. p. motor, the refrigeration being produced by carbonic acid gas. The cooling or hardening room of the plant will be 20 x 12 feet. There will also be room for the holding of 1500 gallons of ice cream. To produce the results obtained by this plant would require 15 tons of ice each twenty-four hours.

The Princess company plans to go more extensively into the manufacturing and wholesale end of their business, carrying out intentions which were held back due to wartime conditions. All of this will mean the employment of considerable labor, both skilled and unskilled, and will be a welcome addition to Jacksonville.

## PRETTY WEDDING AT WINCHESTER CHURCH

Mrs. Leola Dahman Becomes Bride of Floyd Violette in Ceremony Saturday Afternoon—Other News of Interest from Winchester.

Winchester, March 26.—The wedding of Mrs. Leola Dahman to Floyd Violette of Denver, Colo., occurred Saturday afternoon at 3 o'clock at the Methodist church. Just a few relatives and friends witnessed the ceremony, which was performed by Rev. Mr. Corrie, pastor of the church. The bride and groom were attended by Mr. and Mrs. William Baisley and Miss Alice Mudd. Master Mack Dahman was the ring bearer. The wedding music was played by Mrs. J. W. Eckman.

The bride was attired in a navy blue traveling suit, with hat to match. She has lived in Winchester all her life and is a daughter of the late Mr. and Mrs. Josiah McDonald. Mrs. Violette is a graduate of the Winchester high school and is very prominent in the musical circles of her community. Her many charming traits have made her a general favorite and many are the friends who extend hearty good wishes at this time.

Mr. Violette is a son of Mr. and Mrs. Bluford Violette and has for some time been division road master for the C. B. & Q. He is a young man of special business ability and sterling worth.

Mr. and Mrs. Violette are to spend several days at the home of the former's father in Ft. Worth, Texas, and later will proceed to their home in Denver. They have the congratulations and best wishes of their many friends.

**News Notes**  
William Wells and George Claywell have returned from Hot Springs, where they enjoyed an outing for the past two or three weeks.

The churches are to have Easter services Sunday morning and in the evening are to unite at the Christian church, where revival services are now in progress.

## Y. M. C. A. WILL MAKE CAMPAIGN FOR FUNDS

Directors and Other Citizens to Seek Money to Pay Two Years Budget Expense—No Building Campaign Now.

The directors of the Y. M. C. A. at a recent meeting decided upon an immediate campaign to raise the money necessary for maintaining the work of the organization during the next two years. While it is the intention of the Y. M. C. A. to erect a building at a later date, this matter will be postponed until such a time as business conditions seem to warrant it.

The directors have asked a number of citizens to co-operate in the solicitation work of raising the funds for the current budget. These workers were asked to meet at First Baptist church Monday evening at 6 o'clock when campaign details will be explained by Dr. Thomas W. Smith. A number of these workers have not been notified but are expected to co-operate in the work as far as possible.

The team members follow:  
G. B. Andrie—H. M. Capps, Henry Frisch, Grant Graff, Andrew Russell, Ralph I. Dunlap.

W. J. Brady—Dr. C. H. Kopperl, M. F. Dunlap, R. Y. Rowe, C. N. Priest, Frank Plouer, J. I. Graham.

C. F. Ehnie—Fletcher Hopper, Rev. M. L. Pontius, Ben Roodhouse, C. E. Williamson, Homer Ranson.

C. A. Fiedler—A. T. Capps, A. C. Mackness, Dr. Thomas W. Smith, F. E. Farrell, Dr. Garm Norbury, H. A. Perrin.

A. D. Fairbank—L. S. Downe, L. T. Potter, L. O. Vought, Fred Darr, Dr. Bradley.

W. G. Goebel—V. R. Riley, C. L. Mathis, Lee Sullivan, C. O. Bayha, H. A. Chapin, Dr. C. H. Rammekamp.

A. C. Metcalf—H. C. Goebel, J. W. Walton, W. E. Sullivan, Rev. J. F. Langton, J. G. Ames.

H. J. Rodgers—H. M. Andrie, H. P. Samuel, J. J. Reeve, A. Weihi, John Larson.

W. B. Rogers—Walter Bellatti, Fletcher Hopper, W. Barr Brown, R. W. Woolston, W. A. Fay.

Rev. W. E. Spoonst—Rev. T. H. Tull, E. E. Crabtree, Rev. W. H. Marbach, H. C. Clements.

Eb Spink—Dr. F. M. Rule, M. C. Hook, Dr. E. L. Hill, T. A. Chapin, Walter Ayers.

Earl M. Spink—J. S. Hackett, Harrison King, C. Lukeman.

Joshua Vasconcellos—F. J. Andrew, T. M. Tomlinson, Rev. D. V. Gowdy, Edgar A. Mrtin, Charles S. Blasko, H. H. Vasconcellos—H. E. Walker, L. S. Recker, William Widmayer, Dr. C. C. Cochran, C. H. Russell.

In this connection it will not be out of place to give some facts about the work of the Y. M. C. A. as now being conducted. The old building was vacated May 1, 1920. All bills were paid and the property 120 by 180 feet west of Grace church was purchased. The association has \$10,000 invested in interest bearing security and a balance of \$500 on hand. It is not the purpose to use the principal fund for current expenses that the present campaign has been planned.

The general secretary has been retained in order to keep the organization intact, to conduct some non-equipment activities and to do preliminary work necessary before a building campaign can be launched.

The following condensed report will give some idea of the work done by the local secretary during the past 11 months' period:

6 meetings of the board of directors.  
2600 mailed communications.  
17 personal interviews with boys.

1 boy's camp.

installing machinery for the pro-  
duction of new models.

According to the quarter-  
master general of the United  
States Army, there are approxi-  
mately 700,000 former service  
men entitled to draw uniforms as  
a part of their allowance.

The chief slogan of the Ameri-  
can soldiers during the world  
war was, "Let's get it." The Ger-  
man slogan was, "They shall not  
pass!" and the army of Great Britain  
used "Carry on!"

In France more than 200,000  
former soldiers are wearing the  
ribbon of the Legion of Honor.  
Before the war, the honor decora-  
tion was worn only by one in  
every 200 population.

William Mills, of England, in-  
ventor of the Mills bomb, is  
claiming a royalty of one penny  
for each of the 75,000,000 of his  
bombs made for the use of the  
Allied armies during the World  
War.

Unless the U. S. government  
establishes a bureau to issue li-  
censes and register pilots, Ameri-  
can army, navy and civilian air-  
planes will be prohibited from  
flying over Canadian territory af-  
ter May 1.

A war memorial building cost-  
ing \$15,000,000, which will  
house the national headquarters  
of the American Legion, is to be  
constructed in Indianapolis, Ind.

Architects from all parts of the  
country will be invited to sub-  
mit designs and plans for the  
building.

In preparation against war, the  
United States this year will  
spend \$1045 in the form of a do-  
nation toward The Hague Peace  
Palace. To get ready for future  
wars, the government this year  
will spend \$861,291,800, or about  
25 per cent. of the total appro-  
priations.

Miss Emma S. Vary, of Con-  
cord, Mass., is one of the very  
few war nurses to possess a Vic-  
tory Medal with five battle clasps.  
She served with the A. E. F. dur-  
ing the World war, and four of  
the clasps were awarded for her  
serving in field hospitals which  
were under fire in an off-  
ensive area, and the fifth for  
serving in a defensive area.

The United States National  
Museum in Washington has be-  
gun to assemble the finest col-  
lection of material relating to the  
world war. The collection not  
only will contain American ob-  
jects of war interest, but exhib-  
its illustrating the war activities  
of countries allied with the United  
States and of enemy coun-  
tries. A rare assortment is be-  
ing listed of war posters, uni-  
forms, decorations and medals,  
individual military and naval  
equipment, including ordnance,  
tank, airplanes, mementoes of  
events and pictures, maps, books,  
pamphlets and manuscripts.

## GREENE COUNTY PLANS WAR HERO'S FUNERAL

Remains of Lieut. Adrian C. Edwards To Be Interred With Fitting Ceremonies—Interesting Facts About Famous Poem.

White Hall, March 25.—The remains of Lieut. Adrian C. Edwards are expected to arrive at Roodhouse Friday, having left New York today. They will be placed in the mausoleum in Fernwood cemetery at Roodhouse until the mother, Mrs. Malinda C. Edwards of Carrollton, can complete arrangements as to his burial. The immortal letter to his mother, written on the eve of the battle in which he was killed, requested that he be buried in the White Hall cemetery, and this request will likely be carried out. The family is identified with White Hall, Roodhouse and Carrollton.

In view of the widespread interest in arrangements for the funeral of Lieut. Edwards, which just now are in a tentative state, a request was addressed to Hon. H. P. Lowenstein of Kansas City for a copy of his poem dedicated to Lieut. Edwards under the impression that Mr. Lowenstein had produced one, and the exchange has brought out some interesting facts concerning Mr. Lowenstein's writings, which he does for the benefit of friends without any idea of compensation. The following letter under date of the 21st inst., is self-explanatory:

"I think the poem you have in mind is my 'Answer' to 'In Flanders Fields.' It was not dedicated, however, to Lieut. Adrian C. Edwards but to the Allied armies and Navies of the World War. I am enclosing you two copies of this poem, together with two copies of poems along the same line, from which you may be able to gather what you want for Lieut. Edwards' funeral. I did not have the pleasure of his personal acquaintance, as I left White Hall before he became a prominent character. I knew him by reputation as a young lawyer, having from time to time seen his name in the White Hall papers, and perhaps had met him on occasions when I visited there, but I did not enjoy his personal acquaintance. Of course after he enlisted in the war I read much about him from the papers all over the country.

"This 'Answer' to 'In Flanders Fields' and 'O, Let Me Sleep in Flanders Fields' are embodied in a history of my life in the Centennial History of Missouri, recently published in four volumes by the Clarke Publishing Co., of Chicago. This answer has received wide publication all over this country, and I have heard of its being often published in Europe. I have acknowledgements of the poem from President Poincare of France, George V., of England, Albert of Belgium and many other notable personages. It is now being set to music in New York by Mr. Frank N. Darling, for many years associated with the Ziegfeld Follies. Two or three years ago it was set to music by Miss Nell Marshall of Oklahoma.

"With best wishes for all White Hall friends," etc.

The poem referred to "O, Let Me Sleep in Flanders Fields," appears below:

In Flanders Fields, O Let me sleep  
And wake me not and never weep  
For me, I rest in perfect peace;  
And all earthly strife shall cease,  
I shall in silence slumber deep.

You do me wrong to stir and sweep  
Away my fondest hopes and keep  
Me from my rest and just release,  
In Flanders Fields.

Disturb me not, but let me sleep  
Right where I am and never weep  
Again, for I shall never cease  
To live and make my light increase,  
As Time rolls on in silence deep,  
In Flanders Fields.

## PROTEST JAP PLAN

Tokio, March 26.—(By A. P.)—The Chita government has filed a protest with the Japanese government against the notification of the latter sent to the Vladivostok authorities on December 16, that the Japanese military control.

According to a semi-official despatch received here the protest said:

"The government of the Russian Far Eastern Republic considers that the notification of the Japanese government relative to placing the Saghalien fisheries under the control of Japan a step to deprive Russia of her rights.

"The Japanese proposal is tantamount to an encroachment on Russia's suzerainty and is, therefore, inconsistent with the oft-repeated solemn declaration of the Japanese government to respect the rights and interests of the Russian government and the Russian people."

## WILL SELECT AWARDS FOR ANNUAL EXHIBIT

International Exhibition of Paintings to be at Carnegie Institute Pittsburgh This Year.

Pittsburg, Pa., March 26.—(By A. P.)—J. W. Beatty, director of Fine Arts at Carnegie Institute, has appointed the International Jury of Selections and Awards for the annual International Exhibition of Paintings, which will open at the institute here April 23. William Nicholson and George Clausen, two English painters have been selected as the foreign representatives on the jury. The American artists who were named to serve are:

C. H. Woodbury, Boston; Bruce Crane, Bronxville, N. Y.; E. W. Redfield, Centerbridge, Pa.; Leonard Ochtman, Cos Cob, Conn.; Daniel Garber, Philadelphia; G. W. Bellows, Emil Carlsen and C. W. Hawthorne, New York City.

Members of the jury will meet here April 7 to select the paintings to be exhibited and award honors. Under an established rule, J. W. Beatty is president of the jury, which will award the gold medal, silver medal and bronze medal, carrying with them respective prizes of \$1,500, \$1,000 and \$500.

Consignments of paintings are arriving daily at the institute, including more than 200 foreign canvases from England, France, Belgium, Holland, Denmark, Italy, Spain, Switzerland and Sweden.

Oversize and Power at  
Low Cost  
23rd Year

When you want to use it, you will be agreeably surprised to find a surplus of power in the Oldsmobile Four that will carry you thru any emergency of road or traffic.

And that the tonneau has actually as much space as some seven-passenger cars.

The reason is that the Oldsmobile Four was designed deliberately for the average American family,

who like a moderately-priced car of size and power beyond what they normally need.

And it is also built to endure so stoutly that the pleasure of the final cost of the extra service will eclipse even that of its attractive purchase price.

It will well repay your time to let us show you why the Oldsmobile Four is so readily accepted as a better value.

## MANY TEACHERS WERE AT SPRINGFIELD MEET

This City and County Well Represented at Convention of Southern District of State Association—Local People on Program.

Practically all of the city teachers and many from the county attended the convention of the southern district of the state teachers' association held in Springfield the past week. The attendance was very large and an exceptionally strong program was presented during the two days the convention was in progress.

H. A. Perrin, superintendent of the local schools, who is the retiring president of the southern district of the state association, was one of the speakers on the program Friday morning, discussing the function of the division teacher's association as related to the territory in which the division is located, and also its relation to the state association.

On Friday evening Edmund Munger and Clayton C. Quast of this city, and W. B. Oids of Decatur, appeared on the program in musical numbers. Miss Agnes Lusk of this city presented a paper before the Interimmediate department, on the theme, "Modern treatment of geography."

Mr. Perrin and H. H. Vasconcellos, county superintendent of schools, were among the delegates chosen to represent the division at the state teachers' convention. Mr. Perrin was appointed delegate from the division to the National Educational association convention to be held in Des Moines the coming summer. Each division elects delegates in proportion to membership in the N. E. A., the southern division electing one delegate.

Mr. Perrin was on of those most active in the movement which resulted in the organization of the division two or three years since, and the attendance at this year's convention is ample proof that there is a place for such an organization in this section of the state.

## CATHOLIC LADIES HAD MARKET

The Ladies' Aid Society of the Catholic church held a very successful Easter market yesterday in the Jacksonville Plumbing Company's store. The window was attractively decorated with spring flowers, making a pretty background for the fine pies, cakes and other good things which were on sale.

The articles which the ladies brought to the market were sold nearly as soon as they were put on display and the market was a great success from all standpoints.

Mrs. Mason who is the president of the aid acted as chairman of the arrangements. She was assisted by Mrs. Ketterling, vice president of the society, and Mrs. Anton Graef, Mrs. Pease, Mrs. Murphy, Mrs. Cleary, Mrs. A. W. Becker, Mrs. John Doyle and Mrs. John E. King.

## FACTS ABOUT MEAT INDUSTRY RELATED

Miss I. O. Beatty, Chicago Attorney Made Informing Address on Packing House Business—Is an Attorney for Swift and Company

Mrs. Miller Weir, of 623 West State street, was hostess yesterday afternoon to the Domestic Science Round Table of the Jacksonville Woman's club. There was a splendid attendance and a most delightful afternoon was enjoyed.

Mrs. J. J. Reeve presided and after the regular business meeting she introduced Mr. Lindley Williamson, now of Champaign, who favored the club with a vocal solo, "Out On The Deep," by Samuel Cowan, this was so

Miss I. O. Beatty, Representing Swift & Co.

much enjoyed that Mr. Williamson kindly responded to an encore with "The Star of Plato," Miss Larimore acting as accompanist.

Mrs. Reeve then introduced the speaker of the afternoon Miss I. O. Beatty, a Chicago woman lawyer and a member of the legal department of Swift and Company. Miss Beatty gave a very interesting talk on the meat industry and the care and preparation of meat. As the women do most of the buying Miss Beatty thought it important that they be informed concerning the facts about the industry. She explained the reason why some cuts are higher than others and the importance of learning to use the cheaper cuts which are just as palatable and nourishing as the most expensive cuts when properly prepared. The packer cannot control the price of meat but it is governed by the law of supply and demand. His product is perishable and cannot be held for high prices and he must meet the competition in the selling of meats.

If the consumer would turn to a meat product, which is more abundant, or to a cut which is in less demand, the price would soon reflect this change in demand. Miss Beatty showed us how it required every part of the organization, from the officers down thru the selling organization to the lowest worker constantly on the alert, to bring about the greatest efficiency in order to get even a fraction of a cent a pound profit. She illustrated this by saying that if Swift and Co., had sold its products during the year 1919 for one cent a pound less than it did, the business would have shown a loss of 41 million dollars, so slender is the line between an enormous loss and Swift and Company's profit in 1919. Any slowing up or change would mean the end of the packing industry as it now exists and no workable plan to take its place.

After Miss Beatty's address the meeting was opened to a general discussion of the subject at which time Miss Beatty answered a number of questions which made the occasion still more profitable.

Mrs. A. B. Williamson, chairman of the program committee, announced the next meeting to be held on April 23rd with Mrs. J. L. Henry, 215 Webster avenue.

After the afternoon's discussion delightful refreshments in keeping with the Easter Season were served and a pleasant social hour spent.

Those who assisted Mrs. Weir were Mrs. W. D. Doying, chairman; Mesdames C. O. Swift, S. W. Black, James Green, J. Marshall Miller, Ed. Tindal, Earl Spink, A. J. Ogram, P. F. Phillips, C. H. ## Social Events

### Easter Party For Primary Children.

The teachers of the primary department of the Congregational church gave a delightful Easter party yesterday afternoon for the children and their mothers. The newly furnished rooms in the Pilgrim Memorial, were gay with white and yellow flowers. There was a lovely little program of Easter songs, games and recitations given.

The children had a lot of fun hunting Easter eggs and they were delighted with the cookies, cut in rabbit and chick shapes. After each guest went home with a tiny nest of Easter eggs as a reminder of the pleasant afternoon.

## PRISONER, BUT STILL RETAINS OPTIMISM

Inmate of Chester Waxes Poetic  
Over Jacksonville and El Mac-  
co Cigars—W. H. McCarthy  
Sent Him Box for Christmas.

Edward Williams, tho a prisoner in Chester penitentiary, still retains his optimism and looks out upon the world with a smile and laugh at the misfortune that has locked him away from the society of his fellow men.

At Chester Williams is known as No. 9120. Last December, just before the holidays he wrote a letter to W. H. McCarthy of the McCarthy-Gebert Cigar company. In this letter he told Mr. McCarthy that he had at one time visited in Jacksonville.

During his visit he smoked some El Macco cigars and was much impressed with their quality. Williams told Mr. McCarthy that the memory of those cigars was still with him but that at the time he was so situated, that he was unable to secure any and asked if Mr. McCarthy would be so kind as to send him a box of them.

This Mr. McCarthy did and received a letter of appreciation from Williams who also asked him to send a photograph which he would enlarge. This was done and in February Mr. McCarthy received the enlarged picture and it is an excellent piece of work.

In the package containing the pictures Williams also enclosed two poems. One is a tribute to Mr. McCarthy written in a rollicking Irish vein while the other is an appreciation of Jacksonville as it comes to Williams locked away from the world and his fellow men. These verses, while not perfect, contain some excellent sentiment and are well worth publishing.

**Williams' Letters.**  
The letters written to Mr. McCarthy in February and the poems are given hereunder.

Menard, P. O., Feb. 23, 1921.  
Dear Sir:

Within two or three days after you receive this, the picture I made for you will be delivered and I am returning the photographs by registered mail.

The drawing will probably arrive during daylight hours but I hope you'll honor my request to open the package after dark as the pictures look best in artificial light at a distance of a few paces. If you consider them worth preserving, I'd suggest black frames with gilt or silver trimmings, also that mats, of a margin of half to two thirds of an inch inside the frames.

Your kindly purpose and thoughtfulness in sending two pictures is understood and thoroughly appreciated Mr. McCarthy, but the likeness of yourself is a token of my humble appreciation of your kindness to myself and other inmates here.

As I shall write you when the pictures leave here, it will be necessary to acknowledge this, from your very sincerely,  
Edward Williams, No. 9120.

Menard, P. O., Feb. 25, 1921.

Mr. W. H. McCarthy,

Dear Sir:

Kindness of Deputy Warden I am forwarding those pictures today.

As all critics here agree that the reproductions of the photos very closely approximate the types of the originals, I may reasonably hope that you'll be pleased with the drawings.

As to the two poems under the same cover, the lively one, implies directly the opposite of any disrespect to the gentleman addressed.

As to the other one, it is taken for granted that McCarthy and his friends will approve of it, therefore it will probably come to the attention of a Jacksonville editor. In this connection I assure you that I really felt attracted to your town during the one brief visit I made it and the sentiment of the verse is entirely sincere.

It may be possible that some exception might be taken to the last two stanzas of this poem, in which case I would, if requested, rewrite them, omitting all reference to my environment. You may note, however, that there is a moral pointed by the verses in question in their relation to those immediately preceding them.

When you reply kindly tell me whether the photographs which I sent by registered mail were delivered in good order. Assuring you that I finished the work with relief and regret. Relief in attaining some degree of success and regret that nothing more can be done for Mr. McCarthy by

Yours with all good will  
E. Williams, No. 9120.

By the Way: If either of the enclosed are published will you please send copies to Mr. Carl Avery Wesner, 198 Broadway, N. Y.

The address given is that of the "Tobacco Leaf" a publication for the tobacco trade.

**VERSES TO AN IDEAL HOME TOWN**

An Appreciation of Jacksonville and Its Beautiful Trees.

To that town that grew up in a

woodland

Sheltered and shady and

green,

With the streets like the aisles of

a parkland.

'Neath sepi-eremerald screens,

To those trees, Gothic-arching

and shapely,

Sheltering, sheltered and loved

Patriarchs towering, stately,

Graceful in space-aligned

groves.

Homes of the "citizen feathered,"

Vibrant with chirping and

song,

Natured, full seasoned and

weathered,

Monarchs in calm and in

storm.

To Jacksonville bowers and fol-

lage,

Turns my thoughts after laps-

ing of years,

Hence this, my verse-versed

homage,

After faraway roaming and

near.

To the time when I strolled on

the highways,

'Mid beauty afloat and aloft,

When I wandered the lanes and

the byways

Of that Athens midwest of the

North.

Bankings of blossoms and lilac

On common and lawn I recall

Drappings of ivy and smilax,

On trellis and arbor and wall.

As I paused under spires ma-

jestic

Of churches in grouping four

square

Those capitol's ecclesiastic

Fit setting for anthem and

prayer.

That seemed like the maples to

hallow,

The spirit and letter of home,

Ah! that devious trail that I fol-

lowed,

Loomed desolate, barren and

lone.

Jacksonville "Home town" beau

ideal,

Of hailing place pride far

abroad,

If a stranger, a nomad, can thus

feel,

When memory beckons him to-

ward.

That town of beauty urbanic,

What of the native life long

This vicarious yearning nostalgia,

What of the bred and the

born?

Of the County of Morgan's fair

township,

In exile self-willed or compell-

ed,

Who's severed tie bonding of

kinship,

Of blood and of birthplace to

dwell.

An alien in city sans neighbors,

Or to rove on a road like mine

own,

Or questing for fortune or favor,

Finds naught like his youth

mem'ried home.

Surely these turn as I'm turning,

Jacksonvilleward in their

thought,

Compelled of nativity's yearn-

ing,

Allured of perspective time-

wrought.

And to those who are loyal abid-

ing,

In Jacksonville's welfare and

weal,

Calmly content overtid-

ing.

Allured of perspective time-

wrought.

And to those who are loyal abid-

## IMPRESSIONS OF A MALIHINI

Note: A Malihini in Hawaii  
is a Tenderfoot.

Miss Clara W. Brown of this city is now in Honolulu. The Jacksonville young woman is doing some special work for the Pacific Commercial Advertiser, published in Honolulu, and in a recent issue the following interesting article from her pen was published:

By C. W. B.

Honolulu is a wayward beauty; alluring, tantalizing, disappointing. You love her, you hate her. You charge into the steamship office to book yourself on the first boat to San Francisco, and get out of it by asking the clerk for a folder to send to a friend. I wonder why?

Take my own case. I am paying thirty-five dollars a month for a dark little room in a decrepit old shell of a building on a shabby street. The floors slope to leeward at such an angle that I am sick at most of the time. We are packed in, two to every room except mine, with one bathroom for the crowd.

On Sunday mornings the square entrance hall is packed solid with soldiers in coats. When I open my door, all the little soldier boys move under the blankets and blink timidly at me.

I tried to break away from my dark little room. Nothing doing, except at a hotel which appealed to my taste rather than to my pocket-book. The ladies who receive paying guests at Waikiki all had, without exception, three pages in a large book filled with the names of applicants. I advertised for a small furnished cottage on a beach, just anywhere. In order to appeal to a large public as possible, I begged for a cottage "on any island in two papers, and pulled in three answers. The first one was from our old friend the joker. He offered his residence on Kadiaki Island off the coast of Alaska, with a beach ice-bound at all seasons, but with a salubrious climate. Now Mr. Skookum Cayuse, where did you pick up that word "salubrious"? It was not of a piece with your cheap paper, scratchy pen, and unformed scrawl. The second letter was from a gentleman of Oriental origin who is blessed with "one big house, one little one, Tonga, one nice friendly island, no pikika." I do him the justice of taking his offer in good faith, but Karamonga is a little too far. Too far from Honolulu. The third answer offered a very nice little cottage on Oahu. When I went to see the man, the offer was withdrawn. I always suspected that I was not what is commonly called handsome, but I had never before had the fact brought so forcibly to my attention. The man said he guessed he might want to take his family out to the beach when the toads were passable, so he would not rent after all.

(In the best manner, "But, sir, you are thus occupying one house and holding another empty, while shiploads of sore tourists, some of whom would doubtless make valuable additions to the community, are flocking back to the States, and 'telling the world.' He (with the well known Honolulu lingo) "Madam, that is my privilege." The incident was thus closed—for him, but not for me, because I have to sleep somewhere, and I am not yet quite ready for the cemetery.

Can't Blame Him.

Not that I blame the man. He says there is no money in renting. Both of his houses are built on leased land, of lumber brought here in ships, and to pay for the lumber he borrowed money at a bank. There are of course infinite possibilities for progress in almost any system that

works well. The overlords could if they choose make of these islands a veritable Paradise of the Pacific. But they have not so far grasped this opportunity. They do not love tourists except in a small and infrequent doses. All they can see is sugar and pine, pines and sugar.

Tourists are a side crop of which they have not yet seen the real value, or rather the absolute necessity. The tourist is expected to glance hurriedly at the Pali and Kilauea, take a dip at Waikiki, and then somewhere else to play. He is not urged to stay, to build a house and bring over his family, to add himself to the great middle class so much needed here. And yet we all know that the crop most vital to this country is not the sugar but Americans.

It seems to me that these wonder islands were created expressly for the purpose of becoming the most beautiful and restful and health resort under our flag. Something like Florida lacks. As democratic and cosmopolitan as California, but without the strident self-advertisement. Can't you almost see the glossy, ribbon-like roads running along every beach and scaling every mountain, wondrous little art colonies perched on the cliffs, with artists splashing blue paint madly in every direction? I used to come in from a scramble over the rocks of Laguna Beach and scrape the blue paint off my shoes. They call it "cobalt" or something. Can't you see the settlements of grasshoppers under coco and breadfruit trees, just a shade more attractive than the tent cities of the California coast? Can't you see the youth of all nations and races tumbling together in the surf, scaling the cliffs, filling the mournful empty places with music? The country here is so sad. It needs happy happy human life. There is nothing but scenery and terrible little clumps of whitewashed shacks, utterly out of pace in a prosperous country. The people who live in these shacks do not look happy. They came from a country that was poor at that time, but where beauty was the first law. No charming little villages to tempt the writer or artist, no quaint lines, none of the touches that show the country is beloved. A sad country, with the shadow of the past hanging over it like a cloud.

Want to Stay.

You might gather from all this that I wished to go away on the first boat out of the harbor. But I do not. I stay on and on. I love the mountains and the valleys hung with rainbows, the blue water, the balmy air that whispers to you, "Be yourself, stop thinking about how a thing looks to other people." Why, there must be something in the air, when a hard-headed, practical farmer from the Middle West will take to wearing red seed necklaces in broad daylight and writing matrimonial advertisements. Yes, people are more interesting than they are back home. I love everything that is different from Main street. I love the Hawaiians, with their lanais, lunas, haus, leis and so on. I love even their holokus. I love the Orientals, especially when they dress as the Lord intended they should, I love Waikiki, when I can remember to forget how it smelled during the last storm. I love the Pali, tho it is too far to walk and I have no car. You see how it is with me. I love you Honolulu—I love you and I hate you.

## MARY REID BRIDE OF WILLIAM DEWS

Well Known Young Couple are  
Wed—Will Reside in Cham-  
paign for the Present.

Jacksonville society was greatly surprised at the marriage which took place yesterday, when Miss Mary Ann Reid became the bride of William A. Dews of Chesterfield, Ill. The friendship of these popular young people had been known for some time, but their marriage came as a total surprise to their many friends.

The ceremony was performed by Reverend Myron L. Pontius, at the Christian church, parsonage yesterday morning at 9:20 o'clock. The only ones present at ceremony were C. L. Reid, father of the bride, Miss Ruth Reynolds, Harold Dunlap and James Barnes.

Mrs. Dews is the daughter of Mr. C. L. Reid of West Lafayette, Ind., and has spent most of her life in this vicinity. She was a student at Jacksonville High school and was also studying voice at the College of Music. She has always taken an active part in the social life of Jacksonville, and her gay, happy disposition and youthful charm have made her one of the great favorites in the younger set.

Mr. Dews is the son of the late Mr. and Mrs. William H. Dews of Chesterfield, Illinois. He is an ex-service man and was overseas during the recent war. Mr. Dews is very well known in Jacksonville, having been a student at Illinois College for several years. While in Jacksonville "Bill" was a general favorite among his fellow students on the Hill and was always prominent in school activities.

He is a young man of ability coupled with a genial personality that has won him many friends.

The young couple left yesterday for Chesterfield, where they will make a brief visit, returning to Jacksonville by way of St. Louis. They were given a good "send off" at the train by five or six carloads of friends who extended their hearty congratulations and bid them a noisy farewell. Mr. and Mrs. Dews plan to live in Champaign, until the groom completes his course at the State University.

## WHY IS A MOUSE? IS ANSWERED

Washington.—(By A. P.)—The old question "why is a mouse?" seems to have been answered at last. He's a seed planter, according to the forestry service, and with the chipmunk, plays a big part in restoring forests in the west.

The appetite of rodents for pine and fir tree seed has often been commented upon, forcefully and unfavorably, by those attempting to replant burned or logged areas, but J. V. Homann of the Stabler, Washington, experiment station has found that young trees returning to such lands frequently come from "seed buried by small rodents beneath the duff of the forest floor."

C. C. Sheppard and George Craig were in from Woodson Saturday.

Howard Strawn of Orleans, called in the city yesterday.

## Always Use American Hammered Piston Rings

"The London Engineer,"  
of London, a recognized authority, says:

"The best way of getting gas-tightness is to obtain a ring properly calculated and properly manufactured, of high tensile cast iron, fitted to make a close joint in the cylinder under working temperature, and hammered to give even radial distribution of pressure."

Every American Hammered piston ring is hammered when cold, by our exclusive patented Automatic machines, creating the permanent, outward tension, by compressing the metal under the ballpoint hammer marks. This assures "even radial distribution of pressure." Heat not being used to obtain this tension, heat cannot take it away.

Gas-tightness in the cylinders of your motor will save Gas, Oil, and Increase Power.

## SOUTH WALES LAND OF ROMANCE IN INDUSTRY

New Oil Town to Cost Seven Mil-  
lion Pounds Sterling Being Built  
—Homes for 1,500 Workers

LONDON, March 25.—(By A. P.)—Renewed attention has just been called to the romantic story of the great industrial development in South Wales, a land of romance in industry, by the building of a new 7,000,000 pounds "oil town," near Swansea, with homes for a population of 1,500 workers.

The site of the new enterprise for the refining of oil brought there from the Persian gulf is Skewen, between Neath and Swansea, where vast oil refineries have been constructed.

There, within a boundary wall 15 miles in circumference, a great oil company has built a new town including stores, canteens, a post office, and in fact almost every adjunct for the comfort and convenience of the workers and their families, who are to inhabit the place.

The undertaking is described as among the largest and most ambitious ever known, even in South Wales, where the great advances in industry have yielded more for times than in any other part of the United Kingdom.

The town sprang into existence as if by a magician's wand, on an arid waste, lying in a hollow basin surrounded by small hills. It is about 400 acres in extent and about five miles from Swansea. Towering tanks, each capable of holding 1,000,000 gallons of oil, rear their heads above the village and at Swansea great docks and reservoirs have been constructed to receive the ships with their oil from Persian fields and other oil-bearing regions of the Near East.

As received, the oil will be pumped through pipes from Swansea thru the new refining town and after refinement will be returned over the same route to Swansea for worldwide distribution.

This inaugurates an industry in South Wales which it is predicted will add new wealth to that already prosperous region.

## PLAN HAVING HOMING PIGEON FLIGHT

Edmonton, Alta.—(By A. P.)—One of the longest pigeon flights on record will be attempted from Edmonton to San Antonio, Tex., June 20. It is announced here. Arrangements for flight have been made between the Edmonton Homing club and the San Antonio Homing club.

Between 30 and 50 homing pigeons will be shipped from San Antonio and liberated here by W. Lees, president of the Edmonton Homing club.

The longest flight on record, according to information here, was from Rome to Liverpool, a distance of more than a thousand miles over difficult country.

## Physician Explains Who Should Take Nuxated Iron

Practical Advice on How To Help Build Up  
Great Strength, Energy and Endurance.

"Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are necessary to success and power in every walk of life," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause of their trouble. Without iron in your blood your food merely passes through the body something like corn through an old mill with rollers so wide apart that the mill can't grind."

"For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable, and all run down," while it goes on with plenty of iron in your blood

you may still be young in feeling, full of life, your whole being brimming over with vim and energy."

But be sure the iron you take is organic iron—Nuxated Iron—and not metallic iron which people usually take. Organic iron—Nuxated Iron—is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings and is therefore an entirely different thing from Nuxated Iron. Nuxated Iron represents organic iron in such a highly concentrated form that one dose is estimated to be approximately equivalent in organic iron content to eating one-half quart of spinach or one quart of green vegetables or half a dozen baked apples. It is like taking extracts of beef instead of eating pounds of beef.

Over 4,000,000 people annually are using Nuxated Iron. It quickly helps make rich red blood, revitalizes worn-out exhausted nerves and gives increased strength and energy. Your money will be refunded by the manufacturer if it does not produce satisfactory results.

For sale by all druggists.

## WORLD FAMED TYPIST WILL PERFORM HERE

Margaret B. Owen, Chairman Speed Writer, Coming to Business College Tuesday.

A typewriter demonstration will be given at Brown's Business College on Tuesday evening, April 5, 1921, by Margaret B. Owen, four times world champion speed typist.

The International Typewriting contests are held each year at the Alumni Business Show in New York City. A \$1000 loving cup, known as the International Typewriting Trophy, is awarded the contestant obtaining the highest speed, and Miss Owen has four times received this honor. Her records for sustained effort for one hour have been, 125 words a minute in 1913, 136 words a minute in 1915, 137 words a minute in 1916, and 143 words a minute in 1917.

The demonstration by Miss Owen at the Business College will be a very interesting one to all typists in this community, as well as to those who are studying shorthand and typewriting at this time.

In addition to the demonstration, the students and friends of the college have arranged a program of excellence, and those who are present will have the privilege of inspecting

the school work done by the students. This exhibit will include practical penmanship, bookkeeping forms and books, shorthand, typewriting, and mimeographing. The work of the college will be represented in all its departments and the people present on that evening will have the opportunity of examining it. A formal program will be published next week. Admission to this demonstration and exhibition is absolutely free. The college earnestly desires your presence and hopes you will set aside that evening for the purpose of attending.

# ILLINOIS COLLEGE NOTES

J. Stitt Wilson made a strong impression on both faculty and students by his powerful addresses. As a result of the special meetings some 160 students signed cards expressing an interest in Christian work of various kinds. Sixty of these students pledged themselves to enter special study classes during the remainder of the college year. These classes will be organized immediately after the spring recess. Some will meet during week days and several will hold their meetings early Sunday evening before the church service. It is probable that classes will meet in the study rooms of the Congregational church.

Dean G. H. Scott went to Springfield on Friday to attend the South Central Division of the Illinois State Teachers' association.

A friend of the college recently mailed in Los Angeles, Cal., a one hundred dollar Liberty bond for the endowment fund. The letter was in a pouch rifled by mail robbers, and the bond was among the booty taken by the robbers.

President Rammelkamp was in Chicago recently attending the meeting of the North Central Association of Colleges and Secondary Schools. He will go to White Hall on Tuesday to deliver an address before the Parent-Teachers' association of that town.

R. W. Woolston, superintendent of the School for the Blind, gave a very interesting talk in the college chapel and the subject of Rehabilitation. Mr. Chapman, one of the blind students of the school, accompanied Mr. Woolston and gave a very interesting reading to illustrate the braille.

William Perryman, '17, was a visitor on the campus during the past week. Mr. Perryman is now in business with a firm in Tulsa, Okla.

Mrs. Jeannette L. Ogden, head of Academy Hall, spent Friday and Saturday in Springfield.

The new officers of the College Y. M. C. A. recently elected were as follows: Elmer Nickel, '23, president; Lane Thomason, '21, vice president; Ed Theis, '22, treasurer; Jesse Hfner, '24, secretary; faculty advisor, Professor F. L. Moats, and ministerial advisor, Dr. T. W. Smith.

Professor Charles B. Newcomer of the department of modern languages, is attending a classical meeting now in session in St. Louis.

According to Miss Margaret Fedde, chairman of the home economics department of the University of Nebraska, farm women are worth \$4,000 a year.

Mrs. Elizabeth Cowan, elected a member of the Australian Parliament, has the distinction of being the first woman in that country thus honored.

Women golfers thruout the United States are demanding that one of their sex be appointed a member of the United States Golf Association.

Miss Cornelia Mattern, of Frankfort, Ky., and Miss Eva Uhl, of Parkersburg, W. Va., have been engaged as private stenographers to President Harding.

At the recent election in Andover, Mass., out of 1,700 women, who were properly registered as voters, only one hundred cast votes in the town election.

In France 500,000 women either live on interest from invested capital or are active in agriculture. Of the other women more than one-half support themselves.

West Falmouth, Mass., has a "League of Neighbors," and every woman in the village is considered a member and is expected to attend the meetings whenever possible.

German mine owners say shortage of labor and post-war economics conditions have forced the women and children into this toil, which under German administration, was forbidden.

In Italy, nearly every woman above the class of labor smokes cigarettes. They use long mouth pieces made of tortoise shell or amber, circled with a band of gold, rubies or diamonds.

Mrs. Annie E. Taylor, the first person and only woman to go over Niagara Falls and live, is now confined at the Niagara County Infirmary, in Lockport, N. Y. She is now past 75 years of age and nearly blind.

Among the new features offered by the fashionable Parisian dressmakers is a different odor for every frock. The scent is provided by sewing sachet into the seams of the gowns, or by artfully hiding little bags of the most delicate odor in corsages and panniers.

For the first time in history, New York City has a police station which is run exclusively by and for women. Mrs. Mary E. Hamilton, the first patrolwoman on the force in New York, is director of the precinct, and Mrs. Isabel Goodwin, the first woman detective, is officer-in-charge.

# ILLINOIS FARMERS SHIP 70 CARS OF CORN

Chicago, March 26.—Illinois farmers have contributed more than seventy cars of corn to the hungry of Central Europe, according to reports received from counties by the Illinois Agricultural association.

"This is more than any other state has given," avers President Howard Leonard, of the Illinois Agricultural association, who has been speaking at corn days recently. "The list is growing so rapidly that it is almost impossible to keep an accurate record of cars shipped. It leaped from forty-five to seventy cars in one week."

In southern Illinois, where little corn is raised, farmers have been given condensed milk. One county shipped a car of wheat flour.

"This record of generosity," says Mr. Leonard, "was made in spite of the fact that farmers have been hardest hit by industrial slump."

LITERBERRY S. S. CLASS ENTERTAINED

Mrs. John Guy Gives Easter Party for Children of S. S. Class — Other Literberry Items of Interest.

Literberry, March 24.—Mrs. John Guy, our efficient teacher of the primary class in the Baptist church, entertained her Sunday school class very pleasantly on Thursday afternoon between the hours of 4 and 5. Several nests of grass and twigs had been made in different corners of the blue-grass pasture belonging to Mr. Berry. Eggs were placed in the nests and everything made ready, all before the children arrived. They came with fun looking out of every face; they were told to go hunt eggs for Easter. There was a scamper and fifteen children had a fine time. Prizes were given for the most nests found and the largest number of eggs carried home.

The Ladies' Aid of the Baptist church shipped a crate of eggs on Thursday to the Hudson Orphanage at Irvington. This is an Easter present which the Baptist ladies each year, send to Mr. and Mrs. N. T. Hafer, the superintendents of "The Hudson Home."

We are under obligations to Mr. and Mrs. Warren Daniels for some very fine California oranges, which they left at our office on Thursday night. Some people always divide when they have something nice sent them. Garden making in Literberry has come to a stop and the gardeners are carrying in coal and keeping up the fire.

FOR A FIRST CLASS BOY SCOUT COUNCIL AND FULL TIME SCOUT EXECUTIVE

An effort is to be made by men interested in the Boy Scouts to secure funds to organize a county-wide Boy Scout Advisory Council and maintain for one year a full-time trained Scout Executive to promote and maintain Scouting in the county. This matter has been under consideration for a year or two and has been postponed for what appeared to be the best of reasons.

With a County Scout Executive to direct and assist Scout Masters, Scouting can be put on a sound basis in this community. The National Scout organization advises that this county should have a first class council as it is the only method by which scouting can be properly developed. It advises that funds be solicited for only the first year's budget and says that no first class

council has ever been abandoned or gone out of business. A Scout Executive gives his full time to Scout activities by training and assisting Scout Masters, developing Scout leadership and to such activities as camps, competitive athletics, drills, etc.

He would take charge of Scout activities at the Rotary Cottage at Meredosa and would probably be able to gather groups of Scouts at the cottage at week ends during most of the school year.

The Scout movement is "Boy All Over." It recognizes that boys will be boys, caters to the boys' instincts, supplies things keeps them busy and trains their bodies, souls and minds to straight living. It teaches them to make good. It is American all over, is non-militaristic and non-sectarian.

Scouting goes to the boys whether they are in the cities, towns or rural communities. Many churches in Jacksonville have Scout troops now. Others

want them as do many rural churches. The recent Red Cross Survey shows clearly the crying demand for Scouting all over the county—the almost total lack of supervised recreation for boys in the community.

There is here a demand for local Scout leadership which can only be developed under a trained executive. We must have scout masters for the many boys who need scouting.

Those interested in securing a first class council are convinced that in no other way can Scouting be properly developed here and are also convinced that Scouting properly organized, and directed will be of untold value to the people of the community in the guidance and proper development of the community's greatest asset—its boys and girls.

Scouting is Boy Insurance, every dollar put into it means better boys both morally and physically. Every society and lodge in the county which must look to

the boys of today for membership in the future can well afford to get under Scouting for it will insure them candidates with clean minds and bodies and men who have been trained to organized endeavor.

Scouting goes to the boys and gets them as does no other organization. It goes to all the boys, wherever there is a group large enough to organize. All the boys of scout age love it and scouting should be so well organized and maintained that its great benefits may be available to the boys everywhere in the county.

MISSION CIRCLE OF LITERBERRY MEETS

Society of Baptist Church Met at Home of Mrs. Scribner, Friday Afternoon — Other Literberry News.

Literberry, March 26.—The Mission Circle of the Baptist church met on Friday afternoon at Harmony Cottage. Mrs. Scribner, although not a member of the Circle, kindly opened her home to receive and entertain the little band of mission workers. About 20 persons were present. After a short business session, Mrs. J. A. Litter read a good piece, "An Easter Awakening." Thirty minutes were given for the Study Book, which was conducted by Mrs. Guy and Miss Edith Scribner. Refreshments were served during the afternoon, which were of the best. Mrs. Scribner was assisted by Mrs. Walter Roach and Mrs. W. W. Daniels. Dues paid were \$2.78. Each member is requested to bring a bible at the April

meeting, so as to take part in the study of the lesson from "The Bible and Missions."

Miss Alberta Olroyd of Jacksonville, came out on the 3 train Friday, to spend Easter with her relatives, Mr. and Mrs. Bert Olroyd, and family.

Insure with M. C. Hook Co.
